

Free Online Meetings, Web Presentations & Remote Support

What is Mikogo?

Mikogo is a free desktop sharing tool perfect for any online meeting, Web presentation or remote support situation. With Mikogo you can invite up to 10 participants to view your screen live over the Web.

Quick and easy to use, Mikogo provides a solution suitable for anyone looking to collaborate online.

Meet - Present - Support - Teach - Share

Mikogo eliminates the need to make on-site visits for tasks that can easily be achieved via screen sharing over the Internet. Provide online technical support for customers. Conduct product demos or make sales pitches to prospects. Use Mikogo to discuss and edit a current team project. Teach and train your pupils regardless of distance. Or simply share recent holiday photos with your friends and relatives.

Why Mikogo?

Free: Mikogo is a high performance free screen sharing solution for all to enjoy, business and private users included. There are no hidden catches, no credit card details required, no trial periods and no feature restrictions.

Anytime, Anywhere: You can host an unlimited number of meetings for as often and as long as you wish.

Save: With Mikogo you will instantly save yourself valuable travel time and money.

Easy-to-Use: Mikogo's ease of use makes the software a breeze for any user, regardless of technical ability. The clean uncluttered user interface will keep your screen free, allowing you and your participants to focus on the presentation or meeting at hand.

How it Works

Mikogo is quick and easy. Just start a meeting with two mouse clicks from your desktop and receive the unique meeting ID. Using this ID, participants can then join from www.mikogo.com without having to neither register nor install any software. Users can then enjoy free screen sharing with all Mikogo features included.

Thanks to globally distributed servers, Mikogo is available for everyone from anywhere at anytime, 24-7.

Commercial and private users in over 160 countries are benefiting from Mikogo
