To strengthen our team in Mannheim or Munich (Germany), we are offering the following position at our company:

Software Developer C++ (m/f)

Mikogo is a successful and fast-growing provider of web conferencing and online collaboration services based in Mannheim, Germany. There are over 1 million users in thousands of companies in more than 180 countries around the world using Mikogo to conduct meetings, presentations, training and support over the Internet. We help our customers communicate effectively over the Internet and reduce travel costs and time. The online collaboration market is one of the most exciting areas in the Internet and is growing rapidly. We offer the opportunity to join a successful and international cloud-based software company. For further information, visit us at www.mikogo.com.

Your Tasks
- Improving and further developing our web conferencing software solution, with a focus on audio and video conferencing.
- Active participation in design and structural decisions.
- Work on high-quality software solutions throughout all stages of their development.

Your Profile
- A university degree in computer science or a comparable qualification, along with several years of professional experience in software engineering.
- Very good knowledge of object-orientated programming in C/C++ and confidence with common development- and testing tools.
- Practical experience with Qt framework and C++ libraries (MFC, STL/Boost).
- Good knowledge of design and architectural patterns on client-/server-side and experience with network protocols.
- You see documented software design, unit testing and performance ratings as integral parts of the development process.
- Your experience and know-how allows you to work on your own after a short period of training and introduction.
- You’re fluent in spoken and written English.
- You are interested in agile software development and the Scrum framework.
- Working independently and as part of a team are both important to you.
- You are open to innovations and always interested in the latest software technology.

We offer an exciting and diverse field of activity at a future-oriented company with flat hierarchies and transparent processes. You will be part of a highly motivated team of international IT-professionals and work on a leading online collaboration cloud solution. Our customers include companies like Yamaha, Roche, Lufthansa, Disney, Aldi, Telefónica, Pearson, McCain, arvato Bertelsmann, OKI and many more.

Please send your application, salary expectations, and your earliest possible starting date to: jobs@mikogo.com (Contact: Christiane Hahnenkamp).
