

Impress Your Presentation Participants – Integrate a Branded Session Login on Your Website

A branded session login is the most professional and easiest way to invite clients to an online meeting. And it's embedded in your own website.

WHAT IS A BRANDED SESSION LOGIN?

A branded session login is the Mikogo Join Session form, with a customized look to fit your corporate image, which is embedded on and works 100% within your website. We also remove the Mikogo branding and implement your company branding - the Mikogo brand is not visible and there are no redirects to the Mikogo website.

WHY USE THE BRANDED VERSION?

We have created the branded session login by combining the HTML Viewer, the Session Login Integration, and custom branding. This is a unique mix which brings three main benefits:

1. **No Downloads:** When joining via your branded session login, your participants will join using the HTML Viewer which means there are no downloads or plugins required.
2. **100% Your Website:** When a participant joins, the HTML Viewer opens directly in a new tab. They will not see the Mikogo Join Session website at all.
3. **Customizable:** After the session ends, your participants will be redirected to any page which you choose on your website – not the Mikogo website.

All of this means that your participants never leave your website and they don't see the Mikogo website.

Further advantages include:

- The branded session login form is integrated inside an IFrame on your website.
- It has a “responsive layout” i.e. all system messages appear on your website only.
- All texts are customizable in terms of font, size and color.

LET'S WORK TOGETHER

There is no “one-size fits all” solution with the branded session login, as it includes custom fonts and colors, has a responsive layout and redirects to a page on your website of your choice.

Consequently, we will work with you to understand your design and website requirements to build the best solution for you.

GETTING STARTED

If you would like further information about getting a branded version of the session login form, please contact our Sales team and we'll get back to you to discuss your website and specific requirements: sales@mikogo.com

ABOUT MIKOGO

Mikogo incorporates innovative desktop sharing technology to provide an easy-to-use online meeting solution for high-quality online collaboration.

Used by more than 1 million registered users in over 180 countries, Mikogo's customers consist primarily of small- to medium-sized businesses that use the software for online meetings, web conferencing, remote support and online trainings.

At present, more than 3,000 corporate customers are using the Mikogo technology and benefiting from significantly reduced travel time and travel expenses.
