

WHAT IS MIKOGO?

Mikogo is a free screen sharing solution for any online meeting, web presentation, or remote support situation. With Mikogo, you can invite up to 25 participants to view your screen live over the Web – anything you see, they see!

Quick and easy to use, Mikogo provides a solution suitable for anyone looking to collaborate online. Thus, Mikogo eliminates the need to make on-site visits for tasks that can easily be achieved over the Internet via screen sharing.

USE MIKOGO TO...

- **Meet:** Discuss and edit a current team project.
- **Present:** Conduct product demos or make sales pitches to prospects.
- **Support:** Provide online technical support for customers.
- **Train:** Host lessons and trainings with anyone regardless of distance.

WHY MIKOGO?

- **Free:** Mikogo offers a free account, available at absolutely no cost to both private users and businesses.
- **Anytime, Anywhere:** You can host an unlimited number of meetings as often and for as long as you wish.
- **Fast and Effective:** instantly save yourself valuable travel time and money.
- **Easy-to-Use:** Mikogo is a breeze for any user, regardless of technical ability. The clean software interface will keep the rest of your screen free, allowing you and your participants to focus on the meeting.
- **Feature Packed:** The software includes a wide range of features to facilitate and empower your online meetings.

HOW DOES MIKOGO WORK?

Mikogo is quick and easy. Just start a meeting with two mouse clicks and receive your unique Mikogo session ID. Participants join your meeting from their computer, smartphone or tablet – no need for them to create an account or install any software. Anything you see, they see!

Thanks to our globally distributed servers, Mikogo is available for everyone from anywhere, at any time.

JOIN MEETINGS – NO DOWNLOADS REQUIRED

No downloads, no installations, no plugins, no registrations – no hassles. Joining a Mikogo meeting is as easy as it gets. For your clients, prospects, and team members, anything you want to share on your screen is just one click away with the **Mikogo HTML Viewer**.

We developed this award-winning solution to be the easiest way to join a meeting, and that shows. It is 100% browser-based so your clients can join your meeting directly through their web browser, even from your own company website. No downloads means the HTML Viewer simply works the first time, every time.

FEATURES

Cross-Platform

Share any document or application on your screen with up to 25 meeting participants in real-time. Anything you see, they see!

Switch Presenter

Grant desktop sharing rights to any of your participants. This enables the participant to become the presenter and share their screen with everyone in the meeting.

Remote Keyboard and Mouse Control

Remotely view and control a distant computer to give IT support. Send keyboard shortcuts to the remote computer via buttons in the software.

Session Scheduler

Schedule multiple meetings ahead of time and send invitations to participants in advance. You can reserve unique session IDs to be used repeatedly in the future.

Application Selection

Select which application or window you want to share, and keep the rest hidden. If you have more than one monitor, select which one you want to share, or share up to four monitors in split screen!

Audio Conferencing

Mikogo provides two options – speak to your participants via the Internet using the built-in VoIP feature, or use your standard phone line. We offer free local numbers in over 28 countries.

... and many more. Visit our [website](http://www.mikogo.com) to find out more about the Mikogo features.
